the engagement will take place this afternoon, the curtain raising at 2 o'clock sharp, and children. It is the best children's show ever seen in this city and the little ones should all be given an opportunity to witness the performance. Eddie Foy, Bonnie Magin, Herbert Cawthorne, Harry Gilfoil, Adele Rafter and Blanche Adams are all good in their parts, especact this funny comedian has a scene with property elephant, worked by two exceedingly clever English acrobats, the audience. Another comic which will please the juvenile au-Herbert Cawthorne as the Irish follower of Blue Beard, makes the acquaintance of "the big head," a mechanical contrivance which represents a most grotesque gigantic human countenance. The head is nearly four feet in height and moves about the stage apparently without body or legs. It is operated by William T. Seymour, a young pantominist from the Drury Lane Theater, London. His work in changing the expression, which is done by mechanism of a complicated character, is surprisingly effective. These are but two of the many comic incidents in "Mr. Blue Beard." As a gorgeous spectacle the extravaganza has no equal. There are but three more nights of the engagement.

Little Anna Blancke, who is appearing at the Park in "The Little Outcast," had an attack of stage fright during the recent Chicago engagement of the play. A phonograph which reports the convicting conversation of two villians and clears the good, kind hero, was tampered with at the crisis in the last act of the piece when the talking machine is turned on by "Bob," the newsboy, a voice roared out to the audi-"Dear boy, this is Annie Blancke, most charming woman I have ever I shall take her home to mother." The actress was paralyzed with amazement and stuttered and stammered through the rest of her lines amid the suppressed laughter of the other members of the company. It seems that Mr. Hogan, the diat the Criterion Theater, Chicago, had been responsible for having a new phonograph record made to replace the old one for this special occasion. The audience didn't know what to make of the surprising statement of the talking machine. "A Litperformances at the Park to-day. in the farce called "The Heavenly Twins" the vandeville stage. They are really very much alike in stature and features and they dress in identically the same manner off the stage as well as on. They refuse to have their names used in connection with their professional work, which leads one to suspect that perhaps they are the daughters of some Methodist minister and have promised the family not to bring their names into theatrical prominence. The stage hands at the Grand, for want of something better to call them, are addressing them as "Miss A" and "Miss B." It will be remmebered that there are three other young women traveling together in vaudeville who prefer to have their names left off the printed programmes. These are "The Three Rosebuds," who, with Al Leech, the comedian, present an amusing singing act.

Word was received yesterday from Liebler & Co. that the dramatization of Hall Caine's "The Eternal City" has been booked for an early appearance at English's, with Edward Morgan and Sarah Truax in the leading roles. This play was Viola Allen's great success of last season and it will be given here in the same magnificent style that characterized the original production. Mr. Morgan was with Miss Allen when the play was first presented and is still playing the strong role of David Rossi. Miss Truax. a very capable actress, is playing Miss Allen's old part of Donna Roma Volonna. Frederick de Belleville, Frank C. Bangs and W. F. Bonney, three other excellent actors, are with the company, which is undoubtedly a very strong one.

All amateurs are invited by Manager Thorbus to "show what they can do." In addition to the regular professional bill, the following local people will take part in the entertainment to-morrow evening: the Melrose Quartette, composed of Walter Carr, Otto Freitsche, Harry Faulkner and Carl Kealing; Albert Butterfield, in Imitations; Carson Hedges, comedian and dancer; Eddie Burtch, vocalist, and the Hartworth broth-

William Faversham has recovered from his recent attack of illness which seized him while in Terre Haute, Ind., and is now in New York rehearsing his forthcoming new play, "Miss Elizabeth's Prisoner." The piece is drawn from a novel by Robert Nelson Stephens, who wrote Sothern's "An Enemy to the King." "Blue! But I've never heard of a kitchen being any color."

This was part of a conversation between a bride shortly to be and a friend. The bride was outlining her plans for her new home, but when she announced her intention of having a kitchen in blue, an explanation was called for.

"Oh, yes, I know one seldom gves much attention to the kitchen furnishings, but my kitchen is to be a little different from other kitchens. You see, I believe that the room and as Jack isn't rich I will have to lend a hand to the work in the kitchen and I intend that it shall be just as pretty as possible. In the first place, my kitchen is to be painted blue-light blue. A great many kitchens are light gray and I don't see why blue will not be as pretty and it won't show the dirt any quicker than the old-fashioned whitewashed walls. It will have to be painted often-that is all.

"Then my cooking utensils, pans, sauce, oans, everything, are to be of that beautiful light blue enameled ware that is so new and my closet shelves are to be either painted white or blue, or else I will cover them with paper of one of these shades. I'm undecided which would be better. Then I'm going to have a white oilcloth covering on the kitchen table. Oh, I can tell you my kitchen is going to be beautiful, a real symphony, with its pale blue pots and kettles and if we are rich enough to get a regular cook I shan't have the slightest trouble to keep her with me always."

Dr. Edward M. Gallaudet Visits Superintendent Richard O. Johnson.

Dr. Edward M. Gallaudet, president the Gallaudet College for the Deaf, Washington, D. C., president of the Society of American Instructors of the Deaf and chairman of the committee of the society which is arranging for its exhibit at the St. Louis exposition, spent yesterday with Richard O. Johnson, superintendent of the Indiana Institution for Educating the Deaf and Dumb, in this city.

Dr. Gallaudet has been president of Galaudet College ever since its foundation forty years ago, and he has probably been at the head of an institution for the deaf longer than any other man in this country. He is a son of Thomas H. Gallaudet, who founded the first school for deaf mutes in

THERE IS ON HAND \$190,000 FO GIRLS' INDUSTRIAL SCHOOL.

Decision Reached After a Long Conference with Governor Durbin-Cottage Plan Approved.

With \$190,000 now on hand, it was decided vesterday to proceed with the building of the Girls' Industrial School, carrying the work as far as the appropriation will allow and then asking the Legislature for an additional appropriation. The Board of State Charities, the board of managers of the Indiana Industrial School for Girls and Woman's Prison and the board that is supervising the separation of the girls' school with Governor Durbin yesterday morning which lasted for over two hours to go ahead with the construction of the Clarence Martindale, the architect who will draw the plans, was present at the confer-

Several members of the board were of the opinion that a handsome building of which the State would be proud could be erected with that sum. Governor Durbin, however, believes that more money will be needed. He said: "It is unquestionably the judgment of the boards that the appropriation is too small. The institution will continue to grow. For that reason suitable and ample buildings

should be provided." The plans submitted by Architect Martindale provide for seven cottages, each with a work shop, a recitation room and a power house. The plan for seven cottages was approved by the board of the Industrial School and the Woman's Prison and the board supervising the separation, while the board of State Charities favored one or two large buildings.
